  - GitHub
  - Figma
  - Postman
  - Asana
  - VsCode

EDUCATION

SECONDARY SCHOOL

Pilar Technical Vocational High School
2018 - 2019

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

Bohol Island State University

2022 - 2023

PROFILE

Hello, my name is Nicole N. Amoguis, and I am a Computer Science graduate. I am excited to meet and connect with new people. With a strong interest in software development, I am constantly seeking new and exciting opportunities to learn and grow.

EXPERIENCE

SEPTEMBER 2022 - DECEMBER 2022

- **WEB DEVELOPER**, YARAMAY

I designed and optimized a visually appealing landing page in Figma, ensuring a seamless user experience, and then translated it into a functional web app using HTML, CSS, and JavaScript. I made the page responsive across all devices and optimized it for search engines, continuously monitoring and improving its performance to enhance the conversion rate.

FEBRUARY 2023 - MAY 2023

- **LARAVEL DEVELOPER**, BISU

During my thesis, I had the opportunity to work on developing Rest API endpoints for web applications using the Laravel framework. It was a valuable experience that allowed me to learn more about the practical application of this technology. I also got to work on a full-stack web application project during my time there, which was a great opportunity to hone my skills and gain hands-on experience in the field. Overall, my thesis was a rewarding experience that helped me develop my skills as a developer.

JUNE 2022 - SEPTEMBER 2022

- **SOFTWARE DEVELOPER**, BISU

During my internship, I had the opportunity to develop a desktop application using VB.NET. This experience proved to be incredibly valuable as it allowed me to learn and gain a deep understanding of software development and problem-solving techniques. Overall, my thesis was a highly rewarding experience that significantly contributed to the enhancement of my skills as a developer.

AUGUST 2023 - APRIL 2024

- **JUNIOR SOFTWARE ENGINEER**, BREAD'S EDGE CORP.

As a junior software developer in the company, I focused on both the development and maintenance of web applications. Leveraging my expertise in languages such as JavaScript, Laravel, Vue, and Tailwind, I actively contributed to feature enhancements, while also addressing and resolving issues to ensure the ongoing reliability and performance optimization of our company's web applications.
